GENERAL PROVISION OF HEALTH SERVICES IN THE AREA.

The Infectious Disease Hospitals are under the control of the Regional Hospital Board.

No difficulty has been found in obtaining admissions, and the transport system is satisfactory.

SANITARY CIRCUMSTANCES OF THE DISTRICT.

WATER SUPPLIES.

A total of 2,936 houses with a population of 9,953 is supplied from public mains.

2,115 dwellings with 6,992 persons are dependent on the well water supplies. Many of these are unfit for drinking.

Piped water from Cheltenham and Worcester Corporations augment the local main supply.

The River Severn supply for Coventry, will, it is hoped, assist in supplying some villages now using well water.

There is no evidence of plumbo-solvency in the district.

Approximately 12 houses are supplied with stand-pipes.

A Scheme for the supply of water to the Parishes of :- Spetchley, Bredicot, Broughton Hackett, Upton Snodsbury, Grafton Flyford, North Piddle, Dormston, Kington, Flyford Flavel, Naunton Beauchamp, Abberton, Bishampton, Throckmorton, Hill & Moor, Fladbury, Cropthorne and Charlton, has been completed and tapplings will commence immediately.

HOUSING.

During 1954, the Council erected 108 houses, making a total of 535 constructed since the War. 41 houses were built privately.

It is noted that about 300 dwellings in the district are in a bad state of repair, forming part of a national problem, the solution of which is at present very difficult.

INSPECTION AND SUPERVISION OF FOOD.

In addition to the Inspector of Weights and Measures, samples are taken by the Sanitary Inspector's Staff under the Food and Drugs Acts, 1928 - 38. There are 33 registered premises for the sale of ice-cream which are regularly supervised.

There are 3 slaughter houses in this area under supervision and inspection.

1 case of food poisoning was reported during the year.

There was some increase in notifications. The Mass Radiography Unit X-rayed 906 persons. Five of these were found to have pulmonary tuberculosis.

The tuberculosis after-care Committee continues to afford needed assistance to longterm cases. This Committee is a voluntary one.

----- o o o -----

The death rate was 11.04 - and increase from the 1953 figure.

There were 293 births this year as compared with 298 for 1953.

The infant mortality rate has decreased.

There were three fewer infant deaths than last year - 7 as compared with 10.

All the above rat@s measure favourably with the national figures.
(see page 1.)

Housing activities continue to be in the forefront of endeavour and undoubtedly advance the personal and public health of the area.

8.

Despite the remarkable increase in dwellings a very large number of unsuitable houses exist. Under "Slum Clearance" it is to be hoped that the problem will be solved as soon as national circumstances will allow.

I am indebted to the Chief Sanitary Inspector and his Staff for their kind assistance during the year.

I am,

Your obedient Servant,

J.J. MURRAY,

Medical Officer of Health.

TO THE CHAIRMAN AND MEMBERS.
OF THE PERSHORE RURAL DISTRICT COUNCIL.

9.

MR. CHAIRMAN, LADIES AND GENTLEMEN.

I have pleasure in presenting my Annual Report on the sanitary work undertaken by Officers of my Department during the year ended 31st December 1954.

SEWERAGE AND SEWAGE DISPOSAL.

The following schemes have been constructed during the year :-

Drakes Broughton.

Scheme for the major portion of the village and the new Council House development, involving construction of works with capacity for 50 houses.

Eckington.

The scheme for the village involving pumping, settlement and rotary distribution, has been completed. The entire village (approximately 185 houses) has been connected to the new sewers.

Peopleton.

Duplication of existing works to give capacity for 20 houses.

Pershore.

The scheme for the town of Pershore is still under consideration.

Brodon.

Instructions have been given to the Council's Consulting Engineers for the construction of a new Disposal Works.

Pershore. (Abbey Grounds)

The disposal works serving the Council's development on the Abbey Grounds is in need of enlargement.

Upton Snodsbury.

Scheme involving pumping, settlement and aeration, giving a capacity for 40 houses.

Whittington.

Scheme with a capacity for 30 houses, for the existing and proposed Council development, involving pumping, settlement and aeration.

REFUSE AND SALVAGE.

Tipping has been carried out at the old Brickworks, Drakes Broughton, during the year. The fly nuisance has been considerably reduced.

Contracts have been undertaken with the Royal Engineers and the Worcestershire Regiment for the twice-weekly removal of refuse from Norton Barracks.

A further contract has been undertaken with the Ministry of Supply and Messrs. Farrans, for the twice-weekly removal of refuse from the Pershore Aerodrome.

S A L V A G E.

The market price of paper increased during the year to £6. per ton. The revenue during the year amounted to £248. compared with £472. during 1953, and £581. during 1952. Scrap metals and other materials continue to be salvaged.

WATER SUPPLY.

The water supply taken from the Overbury Springs is of good quality, this water supply is untreated. The supplies obtained from neighbouring Corporations has been similarly of good quality.

The number of new consumers connected to the mains during the year is 96.

Trouble was again experienced with the maintenance of the public supply due to the inadequacy of the Pershore service reservoir.

Main laying in the Regional Water Supply Scheme serving the northern part of the district has been completed.

Analyses - Well Water.

26 applications for Improvement Grants were approved during the year.

÷ ÷ ÷ ÷

There has again been a reduction in the number of applicants for new houses - 402 as compared with 428 last year.

The provision of Village Sewerage Schemes becomes of prime importance as main water is provided throughout the district.

It is proposed to prepare schemes for the Villages of Bishampton, Cropthorne and Hill and Moor during 1955.

The proposed scheme of Sewerage and Sewage Disposal for the town of Pershore is still an urgent necessity.

I am, Sir,

Your obedient Servant,

J. W. HOLMES,

Chief Sanitary Inspector.
